# Hand Sewing

## Across

3. Used to manipulate the needle, hold fabric in place, cut thread, write with tailors chalk

6. Thin fibers spun together used in the manufacture of textiles and in sewing

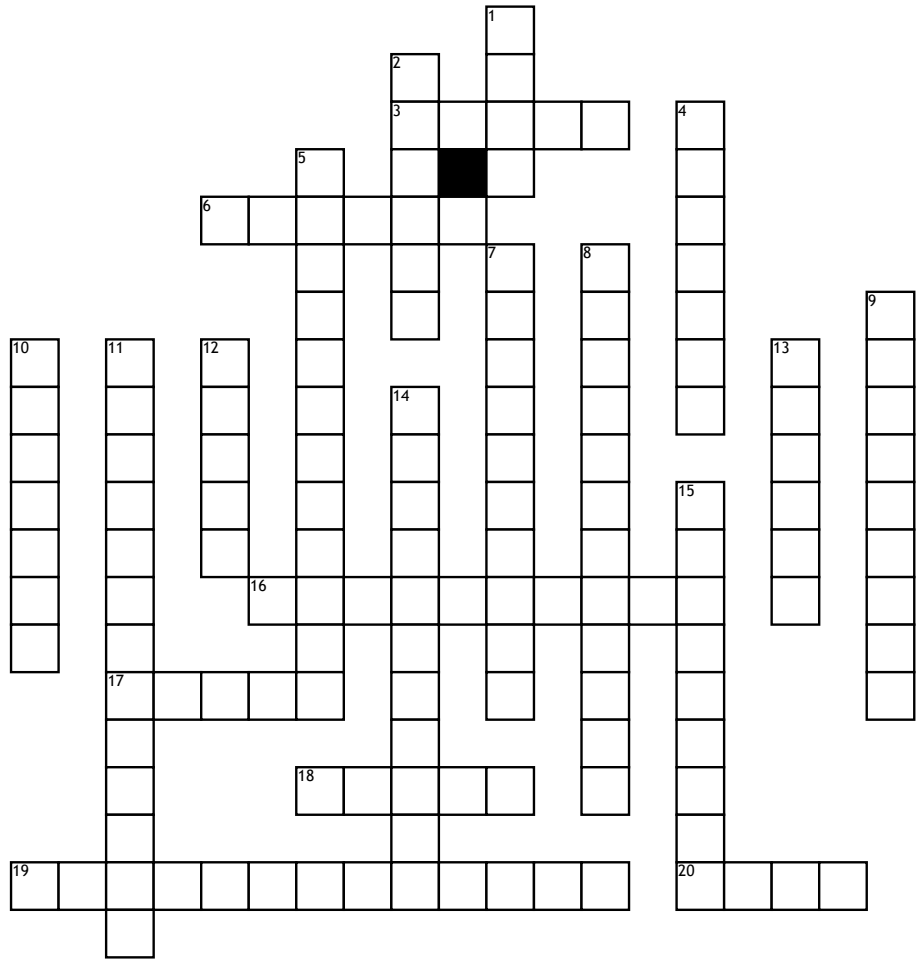

16. Tool that makes it easier to remove stitches along the seam

17. Thread comes on one of these

18. Measures short distance, has adjustable slide

19. Chalk filled pencil to make temporary marks on fabric

20. There needs to be a \_\_\_\_\_ at the end of the thread to secure stitching.

## Down

1. These are used to hold fabric together before the fabric is sewn together either by hand or machine.

2. Used to cut fabric

4. Protects your finger when hand sewing

5. This item has a handle wand metal wheel with "teeth" that is used for tracing and leaving dotted marks on the material

7. Sharpens pins as it has sawdust to do so

8. This waxy coated paper transfers pattern markings onto the fabric

9. Used to hold fabric or patterns/fabric together, closes

10. Small items used in sewing in addition to the main material, like buttons, snaps, etc.

11. Used to cut a zigzag edge to minimize fraying

12. Pins and needles should never be placed in your \_\_\_\_\_.

13. Has an eye

14. Used to measure body parts as it is flexible

15. Measures long, straight distances
