# Health and Safety

## Across

1. We should always be \_\_\_\_\_ for an emergency.

6. If there has been a spillage, you will need a \_\_\_\_\_ to warn people.

9. Spilled liquids create \_\_\_\_\_ and needs to be cleaned up straight away.

11. We can prevent slips, trips and falls by maintaining good \_\_\_\_\_.

12. Store \_\_\_\_\_ items in lower drawers or on lower shelves.

## Down

2. It is everyone's \_\_\_\_\_ to work safely and report hazards.

3. Do not overload electrical circuits. Only put one \_\_\_\_\_ in each socket.

4. Using correct \_\_\_\_\_ when sitting, standing or lifting can help prevent muscle strain.

5. During an emergency, you should use the exit \_\_\_\_\_ to you.

7. Do not \_\_\_\_\_ fire escape routes or extinguishers.

8. Reporting \_\_\_\_\_ equipment or unsafe behaviour can help prevent accidents.

10. When carrying an object always keep your back \_\_\_\_\_.
