

# Heating/Energy Terms

## Across

3. The direct transfer of thermal energy from one substance to another that is touching
5. The process by which heat is trapped in the atmosphere by water vapor, carbon dioxide, etc.
8. A gradual increase in the temperature of Earth's atmosphere
9. A measure of how hot or cold something is
10. Energy that comes from heat

## Down

1. Chlorine compounds that are the main cause of ozone depletion
2. The transfer of thermal energy by the movement of liquid
4. An instrument used to measure temperature
6. The direct transfer of energy through space by electromagnetic waves
7. The transfer of thermal energy from one object to another
