

Name: _____

Hidden Figures

Across

3. A man or women that goes into space
4. Who was born on September 20, 1910 and was a black American mathematician and a human computer?
7. The curved path something takes as it moves through space
8. High-level computer programming language
11. Laws of Segregation
14. The name they called the black women at NASA
16. The race between America and Russia
17. A person that looks over another person
19. Katherine Johnson's first husband
20. Who was born on April 9, 1921 and was a black mathematician and an engineer?

22. An artificial body placed in orbit around an object in space
23. What happened to Katherine Johnson's first husband?
25. Katherine Johnson's second husband
26. What is the term for sending something into space
27. What year did John Glenn orbit the Earth?
28. Mary Jackson's husband
30. What is the acronym for the National Aeronautics and Space Administration?

Down

1. Large high-speed computer
2. Who was born on August 26, 1918 and was a black American mathematician?
5. Cards that show data

6. What is the term for an object going around another object?
9. Dorothy Vaughan's husband
10. A small spacecraft
12. An enforced separation between two races
13. A coating of protecting from the heat
15. The first man to orbit the Earth
18. What is the name of the company that made the first electronic computer?
21. An expert in math
24. A pair of numbers that shows you where the point goes
29. Russian satellite
