

Name: _____

Date: _____

Higher Biology DNA

Across

- 5. number of strands in a molecule of DNA
- 6. molecule found at the 5 prime end of DNA
- 9. base that pairs with adenine in DNA
- 11. base that pairs with guanine in DNA
- 12. sugar found in DNA

Down

- 1. bonds between two complementary bases
- 2. two DNA strands run in opposite directions
- 3. describes two bases matching each other

- 4. molecule found at the three prime end of DNA
- 7. shape of a spiral DNA molecule
- 8. bonds between phosphate and sugar of two nucleotides
- 10. repeating unit which makes up a strand of DNA
