# Hygiene

## Across

2. People who have symptoms of COVID-19 are able to recover at home, but call 911 immediately if you experience \_\_\_\_\_ warning signs such as: trouble breathing; persistent pain or pressure in the chest; confusion; inability to wake or stay awake; and blueish lips or face.

6. A mask is not a substitute for \_\_\_\_\_. Avoid close contact!

10. Check the CDC's \_\_\_\_\_ for tips, updates, and statistics as the COVID-19 situation develops.

12. Answer and cooperate with health department officials who may call you to perform \_\_\_\_\_ tracing. The call is confidential, and information you provide can slow or prevent the spread of the virus to others you exposed or were exposed to.

13. Where online orders or delivery are unavailable, use \_\_\_\_\_ pickup where offered.

15. Clean and \_\_\_\_\_ frequently touched surfaces daily.

16. Use \_\_\_\_\_ order and delivery services, such as Amazon, when available.

18. Though the risk of COVID-19 transmission from \_\_\_\_\_ to humans is low, it is still possible. Keep ALL members of your household---human or otherwise---away from other people!

19. COVID-19 is believed to spread primarily via \_\_\_\_\_ contact. This includes droplets from coughs, sneezes, and even talking.

20. The best way to prevent illness is to avoid \_\_\_\_\_ to the virus entirely.

## Down

1. Another name for COVID-19 is \_\_\_\_\_. -2

3. Unpack safely at home: items handled by other people (deliveries, mail, take-out bags) should be moved into different \_\_\_\_\_, and the previous packaging disposed. Disinfect surfaces exposed to the new items, and wash your hands afterwards.

4. Wear a \_\_\_\_\_ when in the presence of people outside your household or anyone who is sick.

5. Stand \_\_\_\_\_ apart from others when in public or near someone who is sick.

7. Wear \_\_\_\_\_ when cleaning and when caring for someone who is sick.

8. If soap and water are not available, use a \_\_\_\_\_ containing 60% alcohol.

9. Washing your \_\_\_\_\_ with soap and water is the best way to stop the spread of germs.

11. Avoid touching your \_\_\_\_\_ with unwashed hands.

14. Monitor your health. Be alert for \_\_\_\_\_ of COVID-19.

17. Cover your mouth and nose with a tissue when you cough or sneeze, or use the inside of your \_\_\_\_\_.
