

I Didn't Expect That: Chapters 1 & 2

Across

2. A tube that puts out waves of moving energy
 5. Things that are made by people
 8. Small pads of paper with a sticky back
 9. It's not easy to explain what these are but they cover the tip of a match

10. This item sticks things together until you pull them apart. They have hooks and loops.

12. Machines that heat up food fast
 13. These are used to color cloth

Down

1. Someone who makes something for the first time

3. This science tool makes small things look bigger

4. Something that sticks things together. Glue is an example of this.

6. A very strong adhesive

7. The thing the inventor makes

11. A shade of purple (purple/grey)
