

Indigenous Belief Systems

Across

2. The passing down, or transmission, of beliefs and/or customs from some generations
7. The ability and capacity to impact the developmental character or behavior of something or someone
8. The formation of the basis of a moral code, philosophy, or religion based on a set of tenets, or principles
9. The practice, or policy, of partially or fully controlling another country by occupying it with settlers, often for economical exploitation
10. The study, or philosophical thought, of the fundamental nature of existence, knowledge, and reality

Down

1. Native: original: autochthonous: occurring naturally, or originating in a specific place
3. Formally written set of consistent rules describing behavior deemed righteous that are to be accepted by a group of people or person
4. Manifestations, or other arts, of human achievement and intellect
5. The worshipping of a greater power, or superhuman, especially a God, and belief in a particular faith in which someone ascribes their utmost importance
6. Belief or principle especially when dealing with a philosophy or religion
