# Ionic compounds

## Across

5. Two or more elements chemically bonded together

7. Negatively charged atom(molecule)

8. Positively charged atom(molecule)

9. Al Br

11. Found on the left side of a yield sign in a reaction

13. CaF

14. MgF

## Down

1. NaCl

2. Be S

3. B O

4. K O

6. Found on the right side of a yield sign of a reaction

10. Occurs when there is a transfer of electrons from one atom to another

12. Two or more different elements chemically bonded together
