

# Lab Equipment

## Across

2. For heating and holding reactions  
 9. Used as a cover for a beaker  
 14. Used to pick up and hold crucibles  
 15. Used to pick up things in the lab  
 17. Small Container for reactions  
 18. Used as a support; Rings and clamps attach to the stand  
 19. Used as a support for funnels and crucibles

20. Support used to hold glassware when being heated  
 22. Holds liquids; Used for heating liquids; Not a measuring device  
 23. Used to evaporate liquids from a mixture

## Down

1. For moving hot beakers  
 3. Used to clean glassware  
 4. Used to agitate liquids or mixtures  
 5. Holds test tubes  
 6. For heating small amounts at high temperatures

7. Used to measure volumes  
 8. Used to transfer liquids  
 10. Used to transfer solids  
 11. Used as a cover  
 12. Used for heating  
 13. Used to hold a test tube while heating  
 16. Liquid transfer; Separation techniques  
 21. Used to support funnels and wire gauze/beakers
