# Lab Safety

## Across

- 2. never wear this "fashionable" product
- 3. we wear this so we can protect our eyes
- 5. Use this when a test tube gets really hot
- 7. Don't wear \_\_\_\_\_ during lab or you'll fall
- 9. when there are chemicals on our body we use a \_\_\_\_\_
- 12. what we do to CALL the teacher when there is an emergency

- 13. we have to keep our eyes open for 10-15 seconds on this, so we can drain the chemicals out
- 14. always work with a \_\_\_\_\_ while doing a lab.
- 15. what we use when a person is on fire

## Down

- 1. pull, aim, squeeze, sweep
- 4. the position we light a Bunsen burner from
- 6. Never pick up \_\_\_\_\_ with your hands

- 8. Wear this so you don't get chemicals on your clothes
- 10. always has to be tied back
- 11. When we want to smell something we don't put our nose in it, instead we \_\_\_\_\_
