Lauren Schulte's Chapter 11 Vocab

Across

2. A decision by a corporation to turn over much of the responsibility for production to independent suppliers

7. A location where transfer is possible from one mode of transportation to another

9. A place to dispose of waste materials by burying it

10. A gas that absorbs ultraviolet radiation, found in the stratosphere

13. A US law that prevents a union and company from negotiating a contract that requires workers to join the union as a condition of employment

16. An industry for which labor costs comprise a high percentage of total expenses

17. Wealth in the form of money or other assets used for a particular business such as starting a business

18. Location factors related to the costs of factors of production inside a plant, such as land, labor, and capital

19. A fabric made by weaving, used in making clothing

20. Sulfur oxides and nitrogen oxides, emitted by fossil fuels that enter the atmosphere and combine with oxygen and water to create sulfuric and nitric acid and come back down to Earth

Down

1. a series of improvements in the industrial technology that transformed the process of manufacturing goods

3. Location factors related to the transportation of materials into and from a factory.

4. An atmospheric condition formed through a combination of weather conditions and pollution, especially from motor vehicle emissions

5. The anticipated increase in Earth's temperature caused by carbon dioxide trapping some of the radiation emitted by the surface

6. Conversion of sulfur oxides and nitrogen oxides to acids that return to Earth as rain, snow, or fog

8. A gas used as a solvent, a propellant in aerosols, a refrigerant, and in plastic foams and fire extinguishers

11. Concentration of trace substances (like carbon monoxide) at a greater level than occurs in normal air

12. The amount of oxygen required by aquatic bacteria to decompose a given load of organic waste

14. Likely to decay or go bad quickly

15. A factory built by a US company in Mexico near the US border, to take advantage of the much lower labor costs in Mexico
