

Linear Equations

Across

2. This is formed by the intersecting x and y axis.
 5. This equation is written as $y=mx+b$.
 8. What is the change in y over the change in x?
 10. What is the horizontal axis on a coordinate plane?

Down

1. This is an equation written as $Ax+By=C$.
 3. This is an equation that forms a straight line when graphed.
 4. This is what y is when x is at zero.
 6. This is the point where the x and y axis cross.
 7. These are the sets of numbers that represent a specific point on the graph.
 9. What is the vertical axis on a coordinate plane?
