# MATH CROSSWORD

Across
4. Values of the variable that make the equation zero
8. relationship between 2 quantitative sets of data
9. mean absolute deviation
10. bar graph for quantitative data
12. set of all of the possible x-values of a function
13. way of organizing data that can be categorized 2 ways
14. number under the radical
15. terms in descending order
19. equation with multiple variables where your asked to only solve one variable
20. the first term

Down
1. part of the quadratic formula to determine the real roots
2. set of all possible y-values of a function
3. expression with many terms
5. a process of finding the least-squares line
6. U shape on a graph/ quadratic function
7. the value of the input x that makes the output f(x) equal zero
11. opposite operation of applying exponents
16. highest power/greatest exponent
17. number of times it occurred
18. highest point of a parabola
