

Macromolecule Review

Across

- 2. Proteins contain Carbon, Hydrogen, Oxygen and what other element?
- 6. What is the most common monosaccharide?
- 8. Disaccharides are how many sugar molecules?
- 9. Lipids are hydrophobic, meaning they fear....

- 10. Saturated fats are _____ at room temperature
- 11. Unsaturated fats are _____ at room temperature
- 12. Amino acids are the monomers of what polymer?

Down

- 1. What are the monomers of carbohydrates?
- 3. Cellulose makes up what part of a plant cell?
- 4. There are _____ different amino acids
- 5. The type of bond that links two amino acids together
- 7. Amino acids contains an amino group and a _____ group
