

Name: _____

Date: _____

Madeline Blatz

Across

- 3. Matter that dose not have a definite shape or volume has particles that move at high speeds in all directions
- 7. The temperature at which a liquid boils
- 10. Matter can undergo a phase change, shifting from one to another
- 11. Mass of an object divided by its volume

- 12. Matter with a definite shape and has tightly packed particles that move mainly by vibrating
- 13. Matter with a definite volume but no definite shape that can flow from one place to another
- 14. Chemical process where a solid turns into a gas without going trough a liquid stage

Down

- 1. The process that takes place when a liquid changes to gas

- 2. Change of matter from a liquid state to a solid state
- 4. Change of matter from a solid state to a liquid state
- 5. The amount of space that a substance or object occupies
- 6. Change of matter a liquid state
- 8. Anything that takes up space and has mass
- 9. The measure of the amount of matter in an object
