

# Make it Stick! Week 1

## Across

3. Lips, cheeks, tongue, teeth, mandible, and palate are all \_\_\_\_\_  
 4. Pulls the larynx and pharynx forward  
 7. Muscle of the cheeks which helps with air flow for speech production  
 10. Inferior Longitudinal, Superior Longitudinal, Transverse, and Vertical are all \_\_\_\_\_ tongue muscles  
 15. Muscle responsible for protruding the lower lip  
 16. Most mobile bone of the facial skeleton  
 18. 3 parts of the palate include hard, \_\_\_\_\_, uvula  
 19. Protrudes the tongue  
 20. Elevates soft palate  
 22. Depresses tongue and draws sides downwards

23. Cheeks help us control air \_\_\_\_\_  
 25. Elevates posterior of the tongue  
 26. Retracts and elevates the tongue  
 27. Masseter, Temporalis, Lateral & Medial Pterygoid are all muscles of \_\_\_\_\_

## Down

1. Musculus Uvulae, Levator Veli Palatini, Palatoglossus, Palatopharyngeus, Tensor Veli Palatini are all \_\_\_\_\_  
 2. Inferior Longitudinal muscle \_\_\_\_\_ the tongue.  
 5. Frontal, Parietal, Temporal Occipital, Sphenoid, Ethmoid, are all \_\_\_\_\_ bones  
 6. Muscle of mastication responsible for opening the jaw  
 8. Makes lips close and pucker

9. Elevates the posterior portion of the tongue  
 11. Maxillae, Zygomatic, Palatine, Lacrimal, Nasal, Vomer, Inferior Nasal Conchae, and Mandible are all \_\_\_\_\_ bones.  
 12. Styloglossus, Hyoglossus, Genioglossus, Palatoglossus are all \_\_\_\_\_ tongue muscles  
 13. Tenses the soft palate  
 14. Vertical tongue muscle \_\_\_\_\_ and broadens the tongue  
 17. Muscle in neck that can be seen when tensed (Jurassic Park character)  
 21. Transverse tongue muscle narrows and \_\_\_\_\_ the tongue.  
 24. Assists in articulation of consonant sounds
