

Name: _____

Date: _____

Math

Across

- 3. The top symbol or number of a fraction
- 6. The middle item in an ordered group. If the group has an even number of items, the median is the average of the two middle terms.
- 7. The distance measured around a circle.
- 9. An equation where the solution set forms a straight line when it is plotted on a coordinate graph.
- 10. To divide into two equal sections.

Down

- 1. In a right triangle it is the side opposite from the 90° angle.
- 2. A number that can be divided by only itself and one
- 4. A set of points that are all the same distance from a given point.
- 5. A positive or negative number that expresses the power to which the quantity is to be raised or lowered. It is placed above and to the right of the number
- 8. An expression in algebra that consists of two terms.
