

Math Terms

Across

2. the relative frequency that an event will occur
 7. the segment that joins two points on a circle
 8. distance from the center of a circle to any point onto the circumference
 9. the result of a probability experiment
 11. distances of a number on the number line from zero

13. how steep a straight line is
 14. a straight line that starts at a certain point and extends infinitely in one direction
 15. objects and figures that have the same size and shape
 16. a chord that passes through the center of a circle

Down

1. the distance around a circle

3. an equation that states two ratios are equal
 4. comparison of two numbers by division
 5. symbol for a number that is not known
 6. a number used to multiply a variable
 10. a member of a set
 12. a point where two line segments intersect
