

Math Vocabulary Test

Across

- 3. A mathematical statement that states that two quantities have the same value
- 5. Having the same shape and size
- 8. To enlarge or reduce a figure.
- 9. The perpendicular distance from the base of a figure to the top of the figure
- 11. To the third power
- 12. To the second power or multiplying a number times itself

15. Having the same shape but different sizes

16. Measurement of the outer edge of an enclosed 2-dimensional figure

17. The steepness of a line or the rise/run

Down

1. An enclosed three sided 2-D figure

2. An equation whose graph is a line

4. The answer to a problem or mathematical question

6. Math that deals with variables

7. The acronym for the order of operations

10. The answer to an addition problem

13. The measurement of the capacity of a solid

14. The distance from the center of a circle to the outer edge of the circle
