

Name: \_\_\_\_\_

Date: \_\_\_\_\_

# Medical Term- Chap. 4

## Across

1. Extreme slowness in movement
4. What kind of muscles are; Muscles Attached to the bones, Make body motions possible, Voluntary, and Striated?
5. Circular movement at the far end of a limb
6. What does my/o mean?
9. Lack of muscle coordination during voluntary movement
15. Overextension of a limb beyond normal limit
19. Decreasing the angle between two bones by bending a limb at a joint.
20. Act of rotating arm or leg so that palm of the hand or sole of the foot is turned downward or backward
21. This system consists of; muscles, fibers, fascia, and tendons?
22. Lowering a Body part
24. Inflammation of tendons due to overuse

25. Movement of a limb away from the midline of the body
26. Rest Ice Compression Elevation
27. what does Ten/o or tend/o mean?
28. Act of rotating arm or leg so that palm of the hand or sole of the foot is turned forward or upward
31. Tightening of a muscle causing it to become shorter and thicker, This is called \_\_\_\_\_
32. Surgical incision into a tendon
33. What muscle forms the muscular walls of your heart?
34. Raising or lifting of a body part
35. Surgical incision into a muscle

## Down

2. What does fasci/o mean?
3. Movement of a limb toward the midline of the body
7. Specializes in physical medicine and rehabilitation

8. What kind of Muscle is Located in the walls of internal organs, such as digestive tract, blood vessels, and ducts leading to glands?
10. Returning to original form, muscle becomes longer and thinner, This is called \_\_\_\_\_.
11. Rupture/tearing of a muscle
12. Specializes in treating causes of paralysis/muscular disorders
13. Chronic condition characterized by fatigue and pain
14. Degeneration of muscle tissue
16. Weakness or slight muscular paralysis
17. Muscle \_\_\_\_\_, are long slender cells that make up muscles.
18. Movement that bends the foot upward at the ankle
23. Increasing the angle between two bones by straightening out of a limb
29. Which flexion type is a Movement that bends the foot downward at the ankle?
30. Circular movement around an axis
