

# Medical Terminology Ch 4 Abriveations

**Across**

- 3. bilirubin
- 6. cardiopulmonary resuscitation
- 7. red blood cell or red blood count
- 9. pathology
- 10. electrolytes
- 19. milliliter
- 20. sodium
- 21. acquired immunodeficiency syndrome
- 22. creatine kinase
- 23. white blood cell
- 25. Chemistry

- 29. nothing by mouth
- 30. phenylketonuria
- 31. congestive heart failure
- 32. iron
- 34. erythrocyte sedimentation rate

**Down**

- 1. urinary tract infection
- 2. hematocrit
- 4. arterial blood gases
- 5. partial thromboplastin time
- 8. after meals
- 11. staphylococcus
- 12. alanine transaminase

- 13. deep vein thrombosis
- 14. rapid plasma reagin
- 15. tuberculosis
- 16. Frozen section
- 17. platelet
- 18. emergency department
- 24. basic metabolic profile
- 26. positive
- 27. blood urea nitrogen
- 28. streptococcus
- 33. eosinophils
