

Name: _____

Date: _____

Mole Day Crossword

Across

- 2. Clump of atoms together
- 5. The type of math used to find the measurement of moles
- 7. Mass of one mole in a substance
- 11. Amount of substance
- 12. Find the molar mass of 2NH_3
- 13. The last substances, on the right of the equation

- 16. a reactant that determines the amount of product that can be produced
- 17. the actual amount of the substance used in percent yield
- 18. Volume occupied by 1 mole of a gas at STP

Down

- 1. the ratio of the moles in multiple substances
- 3. The unit of volume used in stoichiometry

- 4. Number used to calculate molecules

- 6. This is Avogadro's number

- 8. potential amount of substance in percent yield

- 9. the first substances, on the left of the equation

- 10. Find the molar mass of $2\text{Fe}_2\text{O}_3$

- 14. Unit of measurement that used 760 as the standard

- 15. Ratio of actual yield to theoretical yield
