

Muscles & Nerves

Across

- 4.** Muscle that produces the contour of the front & inner side of the upper arm; lifts the forearm & flexes the elbow
- 6.** Large, flat, triangular muscle covering lower back
- 8.** Tendon that connects the occipitalis & frontalis muscles
- 11.** Also known as occipitofrontalis ; the broad muscle that covers the top of the skull & consists of occipitalis & frontalis
- 18.** Whitish cords
- 20.** Large muscle that covers the entire back of the upper arm & extends the forearm
- 23.** Branch of the fifth cranial nerve that supplies impulses to the upper part of the face
- 24.** The part of the muscle that does not move; attached closest to the skeleton
- 25.** Sensory-motor nerve that is smaller than the ulnar & radial nerves & supplies the arm & hand
- 26.** Carries impulses from the brain to the muscle or glands

27. Front portion of the epicraniu; musle of the scalp that raises the eyebrows, draws the scalp forward, & causes wrinkles across the forehead

28. Muscles that draw a body part, such as a finger, arm, or toe, inward towards the median axis of the body or of an extremity

29. Muscle that seperates the fingers & the toes

30. Ring muscle of the eye socket; enables you to close your eyes

Down

- 1.** Muscles that draw a body part, such as a finger, arm or toe away from the midline of the body or an extremity
- 2.** Also known as efferent nerves; carry impulses from the brain to the muscle or glands
- 3.** the movable part of the muscle that is farthest from the skeleton
- 5.** Muscle that bends the foot up & extends the toes
- 7.** Affects the muscle of the chin, lower lip, & external ear

9. Back portion of the epicranius; muscle that draws the scalp backward

10. Muscle that elevates the lower lip, raises & wrinkles the skin of the chin

12. Muscle that extends the big toe & flexes the foot

13. Muscle that moves the little toe

14. Muscles of the chest that assist the swinging movements of the arm

15. Branch of the seventh cranial nerve thats affects the muscles of the mouth

16. Muscles of the chest assist the swinging movements of the arm

17. The middles part of the muscle

19. Also known as dorsal cutaneous nerve, a nerve that extends up from the toes & foot, just under the skin, supplying impulses to the toes & foot as well as the muscles & skin of the leg

21. Sensory-motor nerve that supplies impulses to the fingers

22. Large, triangular muscle covering the shoulder joint that allows the arm to extend outward & to the side of the body
