10. I enjoyed seeing you watch over others with your strong vision and purpose. Thank you for including me and checking in on me each day.

13. I came to appreciate your amazing focus and your incredible sense of drive in your patient's care.

14. Your name rhymes with tall, which is ironic. Thank you for answering my crazy questions and for letting me play with the overpriced linac model!

15. You always reminded me to be safe on the Max ride home, even on the Monday after you lost your dad. I'm sorry about your dad. Thank you for your steady sweet nature!
