

Naval Terminology

Across

2. The ribbon worn around a sailor's cap indicating his/her ship.
 4. A lever used for steering, attached to the top of the rudderpost.
 9. Referring to the four main points of the compass: north, south, east and west.
 10. Navigational instrument showing the direction of the vessel in relation to the Earth's geographical poles or magnetic poles.
 13. A compartment, especially in the Royal Navy, from which the ship was navigated

14. A lighted or unlighted fixed aid to navigation attached directly to the earth's surface

16. The pedestal or housing for the ship's compass, usually located on the bridge or in the wheelhouse.

Down

1. Equipment used for lifting, usually consisting of pulleys and lines.
 3. A condition in which the body core temperature drops to a dangerous level.
 5. A non-commissioned officer responsible for the sails, ropes, rigging and boats.

6. The toilet or latrine of a vessel.

7. The ceiling. The under-side of the deck above.

8. When referring to a vessel it implies that it is not under control and therefore goes where the wind and current take her.

11. Sweet hot chocolate made from slab chocolate shavings mixed with water into a hot drink.

12. An upright wall within the hull of a ship. Occasionally refers to a watertight, load-bearing wall, but not always.

15. Toward the stern, relative to some object
