

Name: _____

Nervous System

Across

1. Process information

4. Line cavities of the brain and spinal cord

11. Produce myelin sheath around nerve fibers in the central nervous system

12. conduct impulses toward the cell body

13. nerve cells

16. Gathering Information

17. surrounds each fiber

18. Large nucleolus

19. both sensory and motor fibers

20. carry impulses away from the CNS

Down

2. Form myelin sheath in the peripheral nervous system

3. nucleus and metabolic center of the cell

5. Protect neuron cell bodies

6. response to information

7. carry impulses toward the CNS

8. fibers that extend from the cell body

9. Abundant, star-shaped cells

10. Fascicles are bound together by

14. Groups of fibers are bound into fascicles by

15. Spider-like phagocytes
