

Name: _____

Date: _____

Neurons

Across

3. Receives impulses and delivers them to the cell
4. Contains the nucleus
7. Neurons are the _____ cells in the body
8. Chemicals produced by axon terminals

10. Neurons that convert external stimuli into impulses

11. The space between neurons

13. Neurons that carry messages from the CNS

Down

1. Basic cell of the nervous system

2. Connects two neurons

5. Contained within the Cell Body

6. Neurons that bring messages to the CNS

9. Message transmitted by neurons

12. Extension of the neuron
