

Name: _____ Date: _____

Nutrition and Metabolism

Across

2. Great source of energy
4. There are proteins that helps in regulating
9. Also called fats
11. Proteins that the body defends against invading microbes
12. Classification of carbohydrates
13. Proteins monomers

14. Excessive amount of carbohydrates causes the pancreas to over produce
15. Lipids includes vitamins that are
16. Source of carbohydrates
17. Needed For lipid digestion and absorbption

Down

1. Classification of carbohydrates

3. Major carbohydrates in the diet
5. Lipids derived from 20 carbon fatty acids
6. Proteins that Speed up biochemical reaction
7. Classification of carbohydrates
8. Lipids helps in the proper
10. Major responsible in Tissue structure

Word Bank

Antibodies	Homeostasis	Lipids	Carbohydrates	Disaccharides
Polysaccharide	Insulin	Fat soluble	Bile salts	Digestion
Eicosanoids	Starches	Bread	Enzymes	Protein
Amino acids	Monosaccharides
