

Name: _____

Date: _____

Ocean Knowledge

Across

- 2. the measure of the dissolved salts
- 9. a mass of mostly microscopic organisms
- 14. the apparent curving of the path moving object
- 15. the change in the water temperature in the Pacific Ocean
- 16. a submerged mountain on the ocean floor
- 18. movement of ocean water
- 20. located between the continental shelf and the continental rise

Down

- 1. a almost level area of the deep ocean basin
- 3. the process of removing salt
- 4. located between the shoreline and continental slope
- 5. a stream like movement water
- 6. the movement water to the surface
- 7. horizontal movement of ocean water
- 8. a long under sea mountain chain

- 10. the organisms that swim actively in the open water
- 11. a long narrow valley
- 12. the organisms that live at the bottom of the ocean floor
- 13. located between the continental slope and the abyssal plain
- 17. A long steep depression in the deep sea floor
- 19. a change in the eastern Pacific Ocean
