# Oceans

## Across

2. The curved path of moving objects due to the rotation of the Earth  
 4. The part of the continental crust that slopes gradually away from the shore  
 7. The flow of water out back out to the ocean after a wave breaks  
 12. The deepest trench  
 13. Deep ocean currents are caused by differences in water \_\_\_\_\_ because of temperature and salinity  
 14. Underwater volcanic mountain  
 16. Organisms that float near the surface

## 17. Bottom dwelling organisms

19. Some organisms can produce their own light in the bathyal zone. This is called  
 20. The measure of dissolved salt in a given amount of liquid  
 21. Lowest point on a wave  
 23. The horizontal distance between 2 successive crests  
 24. The removal of salt from ocean water  
 25. Highest point of a wave

## Down

1. The steep drop between the continental shelf and the abyssal plain

## 3. Deep underwater valley

5. Free-swimming organism  
 6. Scientists that study the ocean  
 8. Underwater mountain chain  
 9. Instruments that measure ocean depth using sound waves  
 10. Vast flat ocean bottom  
 11. The vertical distance from crest to trough  
 15. The rise and fall of sea level do to the gravitational pull of the moon and sun  
 18. Half the wave height  
 22. The largest ocean
