

Oktoberfest 2017: ATP & Mitochondria

Across

2. Fermentation of sugar producing ethanol and carbonation results in:
 3. Fermented without the addition of sugars, acids, enzymes, water, or other nutrients.
 5. Fermented drink with supposed health benefits
 7. Microscopic single-celled organisms that inhabit virtually all environments on Earth

9. May be transformed between different forms at various efficiencies.

12. Symbiotic culture of bacteria and yeast

13. Deoxyribonucleic acid

Down

1. Metabolic process that consumes sugar in the absence of oxygen.

4. A microorganism, tissue or organ that are grown in laboratory condition on mediums or substrate.

6. Cell's power producers

8. Adenosine triphosphate (Energy currency of life)

10. Ribonucleic acid

11. Microorganisms of the fungus kingdom
