

Name: \_\_\_\_\_

Date: \_\_\_\_\_

# Our Earth's Seasons

## Across

- 3.** \_\_\_\_\_  
power comes from the sun
- 10.** Earth is closest to the sun
- 12.** one trip around the sun
- 13.** The Earth does this around the sun
- 14.** The path that the Earth (and all planets) follows around the sun

## Down

- 1.** the Earth's day is 24 hours because of its \_\_\_\_\_
- 2.** The 23.4 tilt of the Earth on its axis
- 4.** when the Earth is farthest from the sun
- 5.** Northern Hemisphere is tilted toward the sun
- 6.** the earth spins on an imaginary center called an \_\_\_\_\_

- 7.** The Northern Hemisphere is tilted away from the sun's rays
- 8.** Helped the world by proving the elliptical path of the Earth
- 9.** A regular oval shape
- 11.** Where the sun's rays make a "direct hit" during every season
- 15.** creates the seasons
