

Name: _____

Date: _____

POPULATION DYNAMICS

Across

7. How populations of living things increase, decrease, what affects populations, and how they function
8. Short life span, small in size, reproduce rapidly
9. A group of individuals of the same species living in a particular place
10. Resources that limit the growth of a population
11. Organisms moving out of an area

Down

1. Doesn't matter how large or small the population is
2. Organisms moving in an area
3. A larger number of individuals added to the population in each generation
4. Live long lives, mature slowly, stay at carrying capacity
5. Depend on how many organisms are in an area
6. The maximum population size an environment can support for a long period of time
