

Periodic Table

Across

- 2. Stable Atom
- 5. Substance made of one type of atom
- 7. Size of an atom is measured in ...
- 9. The parts of an Atom with no charge
- 10. The Letter(s) that label an element
- 15. Rows
- 16. Group Seven (VERY REACTIVE)
- 17. Columns
- 18. Atomic # is the same number as the number of _____

19. First group (VERY REACTIVE)

- 20. Element that is considered a Metalloid or a Transition Metal
- 21. Positive ions have _____ an electron.
- 22. Atoms of the same element with a different number of neutrons
- 23. Way of modeling an atom by using its electrons on each shell.
- 25. Ion that is positive
- 26. Electrons on the outer shelf.

Down

- 1. The parts of an Atom with a negative charge
- 3. Only transition metal that is a liquid

4. Either Solid or Gas

- 6. Ion that is negative
- 8. Family with the most elements
- 11. Two or more elements chemically combined
- 12. Negative ions have _____ an electron.
- 13. Semiconductors
- 14. Full outer shells (Family)
- 24. Way of modeling an atom by using its electrons on the outer shell.
