

Name: _____ Date: _____ Period: _____

Periodic Table and Atoms

Across

2. atoms bonded together

6. subatomic particle with no charge

8. row of elements

9. Column of elements

10. Positively charged subatomic particle

15. Last electrons on the last shell

Down

1. Substance made up of one atom

3. Number of protons and electrons

4. table in which elements are arranged by the atomic number

5. mass of an atom

7. one or two letters representing an element

11. Negatively charged subatomic particle

12. located in center of atom

13. rings holding electrons

14. Basic building blocks of matter
