

Name: _____

Date: _____

Photosynthesis and Cell Respiration

Across

1. A product of cellular respiration
6. The energy molecule produced during cellular respiration
10. A reactant of photosynthesis
11. The type of respiration that includes oxygen

13. A reactant of cellular respiration

14. The organelle in which cellular respiration occurs

Down

2. A product of cellular respiration
3. The organelle in which photosynthesis occurs
4. The type of respiration that does not include oxygen

5. A reactant of cellular respiration

7. A reactant of photosynthesis

8. A product of photosynthesis

9. Organisms that do photosynthesis

12. A product of photosynthesis
