

Name: _____

Date: _____

Physics 1st Review

Across

1. Who discovered the atomic theory?
2. The measurement for gravity is also an ?
3. 1600 meters = 1 ?
5. 9.8 m/s/s is ? on Earth
9. the scientific unit for time is the ?
13. weight = mass x ?
14. meters per second + direction is what scientific unit
17. 24 meters is a ?

18. Energy of motion is called ?

19. speed vs. time graph is an ? graph

20. protons and neutrons are housed in the ?

21. The scientific unit for mass

22. the scientific unit for distance is ?

Down

4. The school year is almost over ?

6. momentum = mass x ?

7. Energy of position is called ?

8. Potential energy is the energy of ?

10. Weight is measured how?

11. Weight is also a ?

12. Who discovered the laws of motion?

15. negatively charge subatomic particle is an ?

16. An objects desire to stay as it is, is called ?
