

Name: _____

Date: _____

Physics Crossword

Across

- 7. Another name for voltage
- 9. Circuit with one pathway
- 12. A device that can control the movement of charges in a circuit
- 15. Nuclear energy
- 16. Movement of electrons through a wire
- 19. Moist paste inside a battery to aid in electron flow
- 21. Heat energy
- 22. Energy from the sun
- 24. Discharge of a build up of electrons from clouds

- 25. Stored energy
 - 26. Larger, more common unit for energy
 - 27. Ability to do work
 - 28. Units for energy
- ## Down
- 1. Two terminals in a battery
 - 2. Energy of motion
 - 3. Unit for potential difference
 - 4. Material that allows charge to flow through
 - 5. Converts electrical energy to another form of energy
 - 6. Energy used to power a generator

- 8. Positive and negative end of a battery
- 10. Subatomic particles transferred
- 11. Device used to measure current in a circuit
- 13. AA battery
- 14. Battery in cars
- 17. Material that does not allow the transfer of electrons
- 18. Rate of change in energy
- 20. Unit of resistance
- 23. Slows down the flow of electrons
