

Plant Vs Animal Cells

Across

- 2. Surrounds every nucleus
- 3. Found in green plant cells
- 5. The mitochondria is the _____ of a cell
- 13. Known as "The Powerhouse"
- 14. Animal Cell have _____ main parts

- 15. The nucleus, mitochondria and chloroplasts are all _____
- 16. found in living things
- 18. Creates cell activity which includes growth
- 19. makes hormones
- 20. arranged back to back

Down

- 1. What throws away waste
- 4. Gives cells their shape
- 6. Divides cells
- 7. Makes Protein
- 8. Process and bundles protein
- 9. Controls all cells
- 10. absorbs water through its roots
- 11. What protects cells
- 12. Stores waste
- 17. a living organism
