

Plant & Animal cells

Across

4. fills the inside of the cell & surrounds organelles
7. the cell _____ surrounds the cell
8. packed protiens & sends it out of the cell
9. controls what goes in and out
10. only found in animal cell; breaks down food & waste

Down

1. breaks down food, water & waste to make energy so the cell can use
2. the brain of the cell
3. its storage
5. its found only in plants cells; takes H₂O, sunlight, & CO₂ to make sugar & O₂
6. makes protiens
