

Plant and Animal Cells

Across

3. Last name of the person who discovered the cell
 6. Transporter
 9. An organelle found in almost all animal cells
 13. Protein builder
 14. The number of organelles an animal cell has
 15. Brain of the cell

16. The number of organelles a plant cell has

Down

1. Vessel in the cytoplasm with fluid
 2. Is outside the plasma membrane of plants
 4. Powerhouse of the cell
 5. Tubular structure in the cytoplasm of the cell

7. Endoplasmic reticulum that does not have knobs
 8. A protoplasm that excludes the nucleus
 10. Endoplasmic reticulum that has knobs
 11. A pliable boundary for a cell
 12. Storage container for a cell
