

Name: _____

Plant parts

- | | |
|--|--------------------------------|
| 1. What part of the cell makes protein for cell | A. Mitochondria (mighty) |
| 2. What part of the cell releases energy | B. cell membrane |
| 3. What part of the cell gets rid of waste | C. Golgi bodies |
| 4. What part of the cell controls all cells activities | D. ribosomes |
| 5. Folded membranes that allows cell parts to move throughout cell | E. nucleus |
| 6. Helps cell maintain its shape | F. ER or endoplasmic reticulum |
| 7. Jelly like material that holds all cell organelles | G. cytoplasm |
| 8. Packages and delivers things throughout cell | H. cell wall |
| 9. Makes food for PLANT cell | I. lysomes |
| 10. Holds water and waste | J. cytoskelton |
| 11. tough, rigid covering for all cells | K. vacuole |
| 12. Outer covering for all cells | L. chloroplasts |
