

Plate Tectonic

Across

- 4. When plates slide past each other
- 6. Compares amount of energy released
- 8. A destructive wave
- 11. Divergent forms
- 13. What is a fault
- 14. Flat lying basalt: lava flows
- 15. Wave that moves everywhere

16. convergent forms

- 18. When plates spread apart
- 19. Describes amount of energy released
- 20. Reverse fault deals with

Down

- 1. Wave that moves straight
- 2. Normal fault deals with

3. Wegner theory

- 5. When plates come together
- 7. What is the top part of the mantle
- 9. Liquid part of the earth
- 10. Place where volcanoes are formed
- 12. Wave that moves like a rope
- 17. Strike slip fault deal with
