

# Plate Tectonics

## Across

- 5. What boundary divides?
- 6. These occur in the mantle
- 7. transform boundaries can create these
- 8. this is something that takes place when you have a convergent boundary
- 9. what is housed in the mantle

- 10. what boundary slides?

## Down

- 1. what boundary collides?
- 2. what fits together like a 7 piece puzzle?
- 3. These can occur at divergent boundary
- 4. This is an important part in the movement of tectonic plates
