

Name: _____

Date: _____

Plate Tectonics

Across

- 4. two plates slide past each other
- 8. when two plates converge but one goes under
- 9. fluid
- 11. the continental puzzle
- 14. general slope, large in diameter
- 17. when two continental plates collide

18. dividing line

19. produces new lithosphere

Down

- 1. happens during divergent boundaries
- 2. occur when two oceanic plates collide
- 3. two plates separate
- 5. elevated zones on major ocean basins
- 6. gap
- 7. occurs before earthquake
- 10. occurs after main earthquake
- 12. movement of continents across earth's surface
- 13. area that gets hotter than others
- 15. concentration of heat in mantle
- 16. inner part of earth's surface
