

Name: _____

Date: _____

Plate Tectonics

Across

2. What is the name of the supercontinent that existed millions of years ago?
7. What was the theory where the earth cooled from lava making mountains, valleys, ocean
9. In the mid 1900's, what technology gathered evidence of plate tectonics
10. What is the theory that new seafloor is formed when magma is forced upward toward the surface at a mid-ocean ridge.

Down

1. What is the theory that plates that move due to convection currents
3. Who proposed the theory of the continents once forming a supercontinent
4. What was the theory that continents were a singular supercontinent
5. What map-maker suggested that if a person looks at the continent, they could see it fit together
6. Who proposed the theory of Plate Tectonics
8. In the modern day, what technology supports the theory of plate tectonics
