

Plate Tectonics

Across

- 6. What do convergent boundaries create?
- 8. What does a divergent plate boundary do?
- 9. What did Alfred Wagner name the one large continent?
- 10. What's a name for a remnant or traits of a plant or an animal that was once a living thing?

Down

- 1. What is an example of a divergent boundary?
- 2. What causes Continental drift?
- 3. Where can you find the lowest points on earth?
- 4. What is the plate boundary when the plate slides past each other?
- 5. What's another name for a long, narrow valley lying between two faults of land?
- 7. What is the process when one plate slides under another?
