# Plate Tectonics

## Across

- 2. Earth's inner most part
- 7. The mid-ocean ridge contains \_\_\_\_\_
- 8. Layer under lithosphere
- 10. When one plate goes under another plate
- 12. All Land
- 13. Plates that slide past one another
- 15. Mountains with magma

- 17. Rigid outer layer of earth

- 19. Sea floor spreads from magma

- 20. Transform boundaries cause \_\_\_\_\_

## Down

- 1. Lithosphere broken into \_\_\_\_\_

- 3. Layer between earth's crust and outer core

- 4. Person with plate tectonics theory

- 5. Tectonic \_\_\_\_\_

- 6. Continents slowly moving apart

- 9. Plates that move towards each other

- 11. Person with theory of sea floor spreading

- 14. Plates that move away from each other

- 16. Inner core + outer core

- 18. Outermost layer of earth
