

Plate Tectonics

Across

1. Seafloor Spreading happens at _____ Ridges
4. ___ floor spreading happens at divergent boundaries
5. The most famous fault in California is?
7. The Supercontinent is called?
11. The plates are part of what layer?
13. How many plates are there?

14. The mantle contains most of Earth's _____?

15. The layer located below the mantle is ?

16. _____ Boundary- the plates move away from each other

19. _____ Boundary- plates slide against each other

20. What happens at convergent boundaries?

Down

2. _____ Boundary- plates are moving towards each other

3. We are on what plate?

6. What is the thickest layer of Earth?

8. Plates float on _____ of the mantle

9. _____ forms when magma rises

10. Who came up with the theory of continental drift?

12. What happens at a transform boundary?

17. The core is made mostly of _____?

18. What is the thinnest layer of Earth?
